THE PROBLEM

Over 72% of plastic packaging leaks out of the recycling, polluting the environment or ending up in landfill stream.

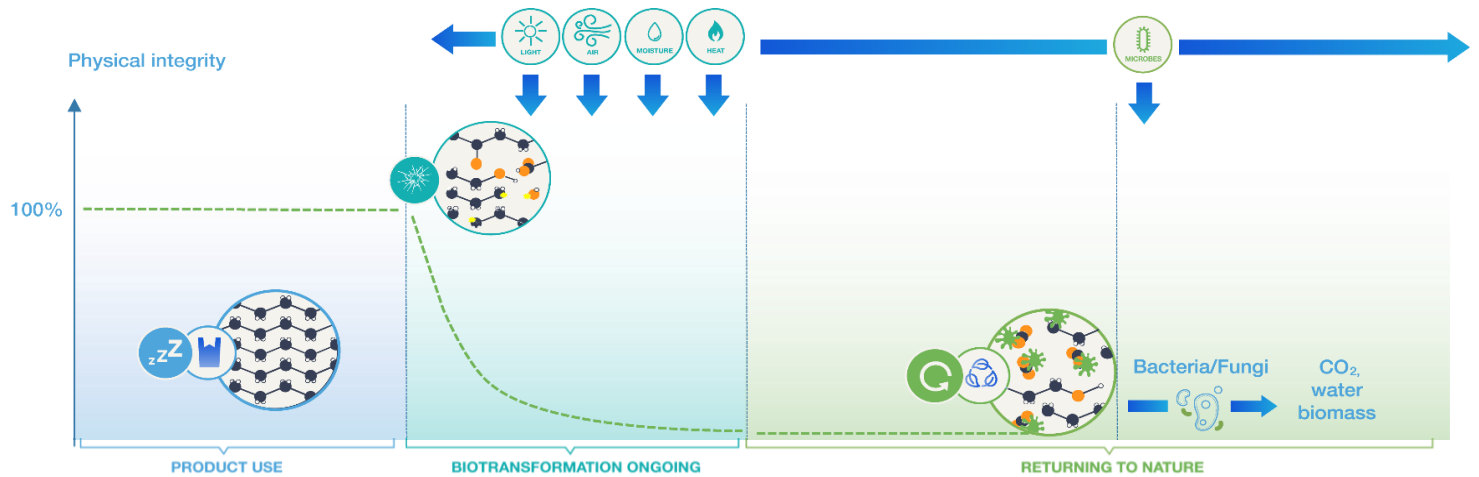

OUR SOLUTION

DAUMAR has applied cutting-edge science to its fully recyclable mono-material Packaging that allows the packaging to disappear completely and safely into nature.

zero microplastics
zero toxins

HOW DOES IT WORK?

VERIFIED PROCESS

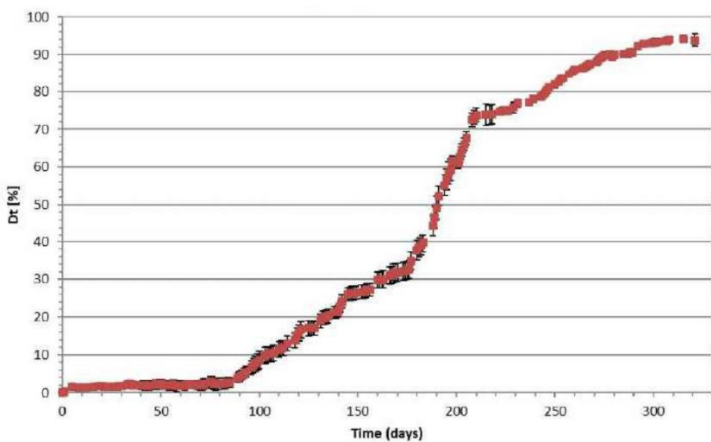

Figure 10. Evolution of the percentage of biodegradation (average value) of sample AST-21-097-05

Complies with Regulations
UNE-EN ISO 17556:2019*

*Note: Test Carried out by the ISO 17025/ILAC accredited AIMPLAS laboratory in Spain.
